**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 28 is rejected under 35 U.S.C. 102(b) as being anticipated by Harris (US 6173118)

Harris discloses the claimed invention including a heating element and a second liquid container. it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987). The limitation for use in a device as claimed in claim 16 does not serve to further limit the structure. Harris must only be capable of being used in a device of claim 16, as in the examiner's opinion it is.

***Allowable Subject Matter***

Claims 16-27 are allowed.

The following is an examiner's statement of reasons for allowance: the available prior art does not teach the provision of the second fluid container existing at an underpressure at room temperature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
